

**SN061**  
(STAIRNOSING)**Product Specifications**

Features
<ul style="list-style-type: none"><li>• For use on top of stair landing in lieu of a stair tread as an added safety feature. In this type of application it provides a better fit between the nosing and the landing tiles.</li><li>• Can be used on stairs in conjunction with rubber tiles of different type and thickness, as well as with other tiles.</li><li>• Underlap tongue that can be cut off to accommodate tiles up to 4mm thickness.</li><li>• Can be used as a contrasting colour to BCA requirements.</li></ul>

**Product Description****Ribbed Stairnosing**

The rubber nosing represents an easy solution for all square-nosed steps. This product increases safety and allows the realization of a step with a nosing of different colour from the tread. It can be used as an alternative to the one-piece step covering, combined with the StudSystem and PlanSystem flooring, and it can also be matched with flooring of different material.
